About PMC Winter Cycle:

PMC Winter Cycle is a way to channel physical, mental and emotional energy to fight cancer. Empowering their year, participants resolve to find a cure for all types of cancer by raising money for Dana-Farber Cancer Institute (Dana-Farber).

In return, they experience a powerfully inspiring event, make new friends and empower their year.

About The PMC:

The Pan-Mass Challenge (PMC) is a bike-a-thon that today raises more money for charity than any other single athletic fundraising event in the country. The PMC was founded in 1980 by Billy Starr, who remains the event's executive director, an annual cyclist, and a fundraiser. The PMC has since raised \$598 million for adult and pediatric cancer care and research at Dana-Farber through the Jimmy Fund, accounting for more than 52% of the Jimmy Fund's annual revenue. Both the PMC and PMC Winter Cycle donate 100% of every rider-raised dollar directly to Dana-Farber. PMC Winter Cycle intends to continue the PMC model of efficiency while simultaneously increasing the level of participation. PMC Winter Cycle offers athletes another opportunity to commit to the cause and the fight against cancer.
